20. Assessing Official Narrative:

(i.e., PMS, PMA, or Equivalent Individual) Responsible for Program, Project, or Task/Job Order Execution

QUALITY OF PRODUCT OR SERVICE: Contractor has met all requirements for setup of dispensers and delivery of bottled water. I have received positive feedback from all locations where the water is delivered.

SCHEDULE: Contractor's delivery schedule is reliable and timely.

BUSINESS RELATIONS: Contractor has contacted this office on several occasions to clarify any issues that have the potential to cause problems or delays. He is open to suggestions and responds quickly to the Sector needs and requirements.

ADDITIONAL/OTHER: Contractor has been able to maintain a competitive pricing strategy over the period of contract performance and throughout the entire range of locations within the El Paso Sector operations. This has enabled us to maintain a single-provider contract for bottled water throughout the El Paso Sector, even in more remote areas. This makes the operational control of this commodity more manageable by having a single point of contact for all bottled water orders. CBP also saves administrative costs for this contract with a single-source contract spanning the 5 years of the contract (Base + 4 option years).

RECOMMENDATION: Given what I know today about the Contractor's ability to execute what they promised in their proposal, I definitely would award to them today given that I
